Description

Milbro's knockdown 'duck' pellet catchers features 4 steel duck targets which when struck with an airgun pellet fall down onto a sturdy magnet. Once you have knocked down all four you can hit the centre round target which releases the magnets as it falls and resets. You'll never need to venture down range to reset and the target can wall or ceiling mounted or simply set up free standing.

Great fun for safe use by all ages of shooter and can be made into a real challenge which could dramatically improve your shooting abilities.

Dimensions:

- Width 48 cm
