Description

The Tornado revolver from Umarex is a great airgun, simple to use and very effective, the Tornado has a 10 shot rotary magazine (giving you the revolver effect.)

Powered by a single 12g Co2 bulb (sold seperately.) This smooth bore metal inner barrel gives you great performance on short ranges combined with the polymer body for lightweight, the Tornado is a fantastic pistol for learning the basics and having great fun with.

On both the under barrel and the top of the revolver, the tornado is outfitted with picatinny rails for addition aiming devices to be attached.

Barrel Length: 130mm

Overall Length: 260mm

Weight: 687g

Platoon Stores would always recommend the use of eye protection with this product and ask that you are aware of and follow all current legislation concerning the safe use and storage of airgun. Enjoy responsibly.
